

THURSDAY, SEPTEMBER 21ST

MORNING SESSION

Chair: LÁSZLÓ SZÉKELYHIDI

- 9:15 – 10:00 JACEK CHUDZIAK: **On representations of the certainty equivalents for binary lotteries**
- 10:05 – 10:25 SEBASTIAN WÓJCIK: Zero utility principle under uncertainty
- 10:30 – 11:15 **Coffee break**

NOON SESSION

Chair: PÁL BURAI

- 11:15 – 11:35 DOROTA GŁAZOWSKA: Subcommutativity of integrals similar to integral quasi-arithmetic means
- 11:40 – 12:00 PAWEŁ PASTECZKA: Invariance property for extended means
- 12:05 – 12:25 KAZUKI OKAMURA: Properties of quasi-arithmetic means of random variables
- 12:30 – 12:45 Problems & remarks

13:00 Lunch

AFTERNOON SESSION

Chair: MAREK CEZARY ZDUN

- 16:00 – 16:20 WŁODZIMIERZ FECHNER: Some remarks on the Casino Inequality of Dubins and Savage
- 16:25 – 16:45 ALEKSANDRA ŚWIĄTCZAK: Functional equations characterizing differential operators
- 16:50 – 17:15 **Coffee break**

EVENING SESSION

Chair: DOROTA GŁAZOWSKA

- 17:15 – 17:35 PÁL BURAI: Limit theorems for Bajraktarević and Cauchy quotient means of independent identically distributed random variables
- 17:40 – 18:00 TIBOR KISS: Some solutions of the Jári-Maksa-Páles functional equation

18:30 Banquet
